

Commercial Offices

FREEAXEZ USA™ – A new paradigm for raised access flooring

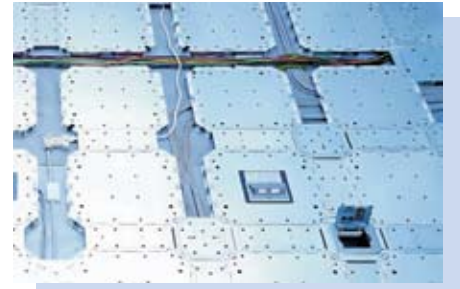

The FreeAxez low profile, all steel, access floor is the ideal wire management solution for the modern office environment:

The innovative, revolutionary design incorporates:

- **High Strength Steel** – high load-bearing, long-lasting.
- **Ease of Installation** – 1000 square feet per installer per day.
- **Simplicity of Use** – 5-second access to power, voice and data cabling without tools.
- **Lowest Profile** – of any raised floor available (1.6", 2.75").
- **Immediate ROI** – instant payback realized during turnover and re-configurations.
- **Sustainable Design** – the first low profile system listed in GreenSpec.
- **Addition by Subtraction** – eliminate power poles and exposed wires.

Make the most of your space with FreeAxez! Realize advantages in flexibility, aesthetics, ease-of-access, organization, sound quality, and sustainability. FreeAxez saves bottom line dollars, and will pay for itself time and again as your space needs change and grow!

FreeAxez is your wire management solution!

Floor plans, personnel, equipment, furniture and cabling are undergoing constant changes in the modern office environment. Make changes in seconds, without tools! Simply remove the floor tile, and lift the channel plates by hand...new wires are installed in seconds instead of hours! Gravity-held components lock together without adhesives, screws, or fasteners.

FreeAxez is acoustically designed to be solid and virtually silent...you will not know you are walking on top of a raised floor! The high capacity channel raceways keep all wiring organized and traceable. FreeAxez saves costs, and eliminates core-drilling, trench-cutting, poke-throughs, power poles, and wall & ceiling wires.

FreeAxez is the flexible alternative to wired furniture systems and traditional raised floors!

Wired furniture systems are expensive and difficult to work with. The narrow raceways and panels can become quickly over-crowded and inflexible; not to mention those ugly power poles! Invest instead in FreeAxez for ultimate flexibility!

Traditional post and panel raised floors are labor-intensive in the office environment. Heavy panels are difficult to work with...special skills and tools are needed to make even simple changes. Choose FreeAxez instead and avoid unnecessary ramps, handrails and fire systems!

FreeAxez offers efficient fit-out for existing spaces and new construction.

In renovation, the quick-connect FreeAxez system goes together quickly. Open areas are installed at 1000 SF per installer per day, and adjustable border components fill the gaps quickly without custom work or metal-cutting. ADA-compliant ramp components take up far less valuable space than taller raised floors.

Columns

Round Rooms

In new construction projects, the slab is suppressed to accommodate the floor - no ramps required and great flexibility from day one! Since FreeAxez does not attach to the building, your investment is depreciable in only 7 years – further savings!

Save valuable vertical space! FreeAxez is the lowest available in the world only 1.6" or 2.75" high!

FreeAxez is the only Green Sustainable low-profile access floor!

FreeAxez is the only access floor that is UL-listed, and the only low-profile system listed in the GreenSpec Directory of sustainable building products. FreeAxez provides designers and building owners with LEED points in four categories, and is 100% recyclable.

Consider installing FreeAxez in offices, conference rooms, training rooms, surveillance / dispatch areas, lobby areas, server rooms, call centers etc. FreeAxez will pay for itself over and over again in any space with power, voice, data and audio / visual requirements.

FreeAxez - every office deserves this floor!

Top organizations like **Johnson & Johnson, Sotheby's, Siemens, Massachusetts Institute of Technology (M.I.T.) Northrop Grumman, Lockheed Martin**, and all **branches of the US Military** (to name a few!) have installed FreeAxez in varied and critical applications.

FreeAxez has quality representatives in your area who are available to briefly demonstrate the FreeAxez flooring system at your facility. Feel free to contact FreeAxez at 888-747-8515 to discuss how we might assist your organization in joining the growing family of clients who have made FreeAxez their wire management solution.
